GARBAGE COLLECTION

Garbage is scheduled to be collected every Tuesday. Garbage may be delayed due to various unexpected problems. If it does occur, garbage will be picked up as soon as conditions permit. Residents are reminded that it is city law that a clear path must be kept from the alley to your garbage cans, trash is to be bagged and cans are required to be covered. Failure to comply may result in a citation. Christmas Eve and New Years Eve fall on a Tuesday this year so garbage for those weeks will be picked up on Monday December 23rd and Monday December 30th.

CALENDAR PARKING

Calendar parking will go into effect beginning November 1, 2019 and will end on April 1, 2020. Vehicles are to be parked on the odd side of the street on odd number days and the even side of the street on even numbered days with enforcement hours of 12:00 am to 10:00 am. With December, January and March having 31 days, those time periods have 2 odd days in a row. Look at the house numbers in your area if you have a question as to the odd and even side of the street, or call City Hall at 218-245-1633 for more information.

FALL LEAF PICKUP

The City will be picking up leaves once again this fall. Due to the high labor cost of picking up unbagged leaves, leaves MUST be put in biodegradable bags, not deposited on the street. State law prohibits placing yard waste on public roadways.

FIRE HYDRANT FLUSHING

Fire hydrant flushing is scheduled for the week of October 7th. Hydrant flushing is required to remove sediment that accumulates in the water mains. The City will post more information about hydrant flushing at the City Hall. An information sheet is also available at City Hall and on the City website at https://www.cityofbovey.org/documents/220/Hydrant_flushing_FAQ.pdf

SEWER RATE INCREASE

With the completion of the new sewer forcemain, there will need to be an increase in the sewer rate. The rate is currently at $42.50 and it is anticipated that we will need to raise the sewer rate approximately $5.00/month to pay for the cost of the forcemain. Once the final construction numbers are in and the loan schedule is received, we will have a better indication of how much we will need to raise the sewer rate.
